DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-24, 32 and 35-36, drawn to a system to effectuate a soft handoff based on the received set of optimum soft handoff parameters, classified in class 455, subclass 442.
 - II. Claims 25-27, 33 and 37-38, drawn to a method for updating a current set of parameters in a mobile unit, classified in class 455, subclass 418.
 - III. Claims 28-31, 34 and 39-40, drawn to a method for restricting mobility of a mobile unit in a telecommunication system, classified in class 455, subclass 456.4.
 - IV. Claims 41-44, drawn to a method for optimizing system parameters in a telecommunication system, classified in class 455, subclass 425.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I, II, III and IV are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as to effectuate a soft handoff, which is different from invention II, i.e., to update a current set of parameters in a mobile unit, invention III, i.e., to restrict mobility of a mobile unit in a telecommunication

system, and invention IV, i.e., to optimize systems parameters in a telecommunication system.

See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to George Eng whose telephone number is (571) 272-7495. The examiner can normally be reached on Tue-Fri 7:30 AM-6:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Curtis A. Kuntz can be reached on (571) 272-7499. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
